ABOUT ME

I'm a 21-year-old web developer from Morocco with a passion for coding. Ever since I was 16, I've been fascinated with the world of programming, and I've been learning for the past three years. I absolutely love solving problems, discovering and exploring new things, and expressing my creativity through my code.

PROJECTS

Tech Store

[Github](#) [Website](#)

Tech Store is an online platform that offers a wide range of tech widgets built using the React.js framework and styled components. The data is managed using the headless CMS service Strapi.
